Of course, run the fbi utility from a directory with some jpps (or other images) to display.. So hit Ctrl-Alt-F1 or something first, login from that text console, and run from there.. This wouldn't work with older versions of udlfb or displaylink-mod (without defio support), and it makes a nice new test case.. National Incident-Based Reporting System The National Incident-Based Reporting System, or NIBRS, implemented to improve the overall quality of crime data collected by law enforcement, captures details on each single crime incident—as well as on separate offenses within the same incident—including information on victims, known offenders, relationships between victims and offenders.
